

Wilder Screen Keys

Demo Video — Shot Guide

Keep this next to your monitor while recording. One take is just practice — do it three times if you need to.

Before You Record

- Log into the **demo** account
- Copy the ScreenKeys build folder to C:\Wilder\Demo\
- Run wilder_screen_keys.exe — confirm it appears in the tray
- Open Chrome/Edge — navigate to **wildercode.com**
- Set browser to **125% zoom** (Ctrl + scroll)
- Go **full screen** (F11)
- Press **Win + G** to open Xbox Game Bar — test the record button
- Clean desktop — hide taskbar, close all other windows

Shot List

Time	Shot	Notes
0:00–0:04	Black screen Wilder W logo fades in, holds	Logo sting — added in editing
0:04–0:06	Fade to desktop Grey tray icon visible	Show icon clearly — zoom if needed
0:06–0:10	Press Caps Lock Icon turns green	Slow deliberate keypress
0:10–0:18	Cursor glides from centre up to nav — lands on Pricing	Smooth, unhurried movement
0:18–0:24	Tap Space Pricing page loads	Clean single tap
0:24–0:32	Arrow keys scroll down the page	Let it breathe — slow scroll
0:32–0:40	Glide to Buy button Tap Space — left click	Hero moment — take your time
0:40–0:50	Hold Space while moving Precision slow-down	Show the contrast clearly
0:50–0:54	Press Caps Lock Icon turns grey	Clean toggle off
0:54–1:00	Black screen Wilder W fades in wildercode.com beneath	Added in editing

After Recording

- File saves automatically to Videos\Captures on the demo account
- Copy the file to a USB drive or shared folder to edit on your main account
- In Clipchamp: add the Wilder W logo sting at start and end (black background, fade in/out)
- Export at 1080p minimum

Remember: the first take is just practice. Nobody sees it. Move the cursor, tell the story.
